The Reverend Jane E. Wood  
Jerusalem-Mt. Pleasant UMC  
21 Wood Lane  
Rockville, MD 20850

Dear Reverend Wood:

This letter responds to your request that I inform you of any interest our firm would have in submitting a proposal for restoration of the church's property at 17 Wood Lane, Rockville, MD.

As a registered professional engineer who has been in the building construction business for more than 30 years, I personally evaluated this opportunity. After visiting the property, examining the exterior and interior of the subject two-story wooden frame structure, I have concluded that your building cannot be restored in any way using its present wood framing or its exterior and interior finish materials.

The whole interior, beginning with the porch and the front face of the structure, has been severely damaged by fire and water to the extent that even trying to save or restore its front cannot be effected properly. Were this a masonry front, however, its restoration would be an appropriate consideration.

I would recommend that you have this building demolished in its entirety, as it has been severely damaged by fire and water; its wooden members and interior surfaces are deteriorating; the building is uninhabitable and poses a health and safety hazard.

I regret, therefore, that Essex Construction has no interest in responding to a request for a proposal to restore any part of the building at 17 Wood Lane.

Thank you for inviting Essex Construction to express an interest in your project.

Very truly yours,

Roger R. Blunt, P.E.  
President
